

Conservation Subcommittee
Meeting Minutes
8/21/2013

Meeting opened at 5:30, town office meeting room.

B. Wicklow, L. Kunhardt, B. Haubrich and P. Throop present.

Reviewed draft conservation plan, discussed a few sections and made some changes. All agreed to accept revised Appendix 6. Pete is still working on the NRI Appendix and will send that to Barry for review and comment before finalizing draft. It is hoped to have the final plan completed by 9/21.

Will provide several copies of the plan and an electronic copy. All agreed the plan should be available on the town website, but sections/maps will need to be split due to the large file size. Larger maps will be available to be printed on request but will be an additional cost over the proposal for the plan itself.

Final invoice will be submitted to the town by Monadnock Conservancy upon completion of the plan. Need to remember to mention the Moose plate grant in all published material including the plan.

This is expected to be the final meeting of the work group. Pete thanked all, and all thanked Pete.
Adjourned at 6:40
